

## Custom Applications

Your K-Factor Filter can be configured and designed to suit any custom application.

The K-Factor group of companies have the capability to plan, design, produce, and optimize your milling or fabrication project. Whether mild steel, stainless, aluminum, sheet metal, brass and copper we provide on-site consultation, engineering design and installation to meet all your steel fabrication needs. CWB – Canadian Welding Bureau and TSSA – Technical Standards & Safety Authority members.

For more information on how K-Factor filtration systems can enhance your specific project, provide us [your requirements](#) and we will respond within two business days.

If you have any questions or would like to access current information about K-Factor Filter installations kindly review our [blog](#). There is no obligation and we appreciate any questions or comments you care to share.
