

## Wire Drawing Applications

There are many applications for wire drawing, including electrical wiring, cables, tension-loaded structural components, springs, paper clips and spokes for wheels.

K-Factor Filters can be used to filter the coolant in wire drawing applications. There are several units in this manufacturing facility.

For more information on how K-Factor filtration systems can improve your wire drawing processes, provide us [your requirements](#) and we will respond within two business days.

If you have any questions or would like to access current information about K-Factor Filter installations kindly review our [blog](#). There is no obligation and we appreciate any questions or comments you care to share
